

Electrical Components International

ECI MEXICAN LOCATIONS- DOMESTIC SHIPPING ROUTING INSTRUCTIONS

These instructions apply to all Canada and USA Vendors shipments to ECI Mexican Locations, (*excluding Flex Tec at Cadereyta N.L., and MRG at Tecate B.C.*). Please read carefully, as it provides shipping compliance requirements for ECI paid freight.

Effective immediately all shipments are to be shipped in compliance with the GROUND instructions below.

Please direct freight to Consignee Delivery Address:

ECI (Electrical Components International)
12415 Rojas Drive.
El Paso, TX 79928

1. If your weekly shipment weight is under (150 pounds) ship once a week via ECI Small Parcel Provider UPS Ground.
2. If your weekly shipment weight is above (150 pounds) ship once a week via ECI Parcel Provider Protrans.
3. If your weekly shipment weight exceeds 7000 pounds or 7 skids reach out to your ECI plant representative at the plant to which you are shipping for assistance to secure the right transportation mode.
4. If you are instructed to ship on a dedicated truck load, NO additional shipments are allowed via UPS, or Protrans without using a Premium ID from your ECI Plant contact.

Routing Instruction Compliance Expectation:

ECI's suppliers must adhere to these Routing Instructions. Supplier MUST INCLUDE PURCHASE ORDER # ON THE BOL

Any shipping type not listed above is considered premium freight, under no circumstances should Supplier deviate from once-a-week shipment frequency and ECI weight break without an ECI Plant Premium ID. It is prohibited to ship via UPS AIR (any service level) without ECI providing the shipping label. Non-adherence to these instructions will result in ECI plant issuing a Debit Memo against Supplier for the unauthorized premium freight cost without ECI Premium ID

If you have any questions, please direct them to your ECI plant representative or call our Logistics department:
Thank you in advance for your support.
